Jan. 11, 1921.

Miss Alicia Hmeler,

135 George St., New Brunswick, N.J.

Dear Miss Hmeler:-

I must apologize for not having kept my promise to write you on Monday, but this is the season of our annual report, and I have been swamped.

I did call at the Medallic Art Co. on Monday afternoon, however, and after explaining the situation to one of the firm, and making clear to him the simplicity of the work you desired, he told me that he believed the two dies could be cut for fifty dollars, and the medallet made for one dollar each in bronze for a quantity of twenty. If the number was greater, the price would be slightly less per copy.

I trust this will give you a little more definite information than you carried away from here. With best wishes for a successful outcome of your effort, I am,

Yours very sincerely,

Secretary.

to the Austrian bills so as to make Czech money out of them.

A recent report says of

My dear Mr. Noe -

You must think me very ungrateful for not having acknowledged your kind letter sooner. My reason is simple — mid-year exams. They are still going on, but the week-end offers a slight breathing space.

We had our meeting as scheduled. The members were delighted with the monogram you gave me, but they were particularly pleased with your suggestion of the monogram inscription on the reverse side. The matter is now in the hands of a committee to see what will be the most feasible way of having a two-sided coin. The

difficulty with an ordinary club pin
is that it would be impossible
to show the opposite side without
taking the pin off entirely. Some
one has suggested a ring on the
order of the old Egyptian rings
which were reversible and this is
something the Committee will
investigate and consider — after
several years.

The price of \$50 for the two dies
was indeed a welcome surprise,
and we deeply appreciate your
trouble in personally presenting our
case to the Medallic Art Company.
We shall probably not be able to
do anything definite with regard
to the dies for a month or six
weeks, because I should like very
much to wait until the variety
play, "Pomander Walk", is given
(February 17th), and we know
approximately how much the
performance has added to our

treasury.

Again thanking you for the courtesy shown me when I visited the Numismatic Society, and for your trouble and interest in us, I am.

Very sincerely yours

Alicia Hensler

President

"The Nines"

Mrs. Sydney P. Doe

Secretary, The American Numismatic Society
New York City
